Summer Edition

ArchiCAD Classes now offered at the BAC

The BAC is **now accepting registration for ArchiCAD classes**. Each class is taught Tuesday nights 7:15 PM - 10:15 PM. In these classes participants will learn to build computer models of their buildings, study them from every angle both inside and out, print plans, sections, elevations and perspective views. In addition you will learn how to create a fly-by and walk-through of your building. This is a hands on course, you will jump right into the program designing a house in your first class. The only prerequisite for these courses is computer literacy.

Classes are as follows:

ArchiCAD I/3D (Sept. 7 - Oct. 26)

This is the core course covering the basic 3-D modeling tools.

ArchiCAD Advanced Modeling (Nov. 2 - Dec. 21)

The course emphasizes the detailed use of the many powerful 3D modeling tools. You will learn by working on a project of your choice.

ArchiCAD II/3D (Nov. 2 - Dec. 21)

In this course you will concentrate on ArchiCAD's features available for a set of Construction Documents.

After participation in any of the above classes you will be entitled to 72 AIA CES for each half semester course. Cost per course is \$725. Register by calling the BAC Continuing Education Department at 617-585-0101.

Make Money with ICS

Due to last years success ICS is extending their offer to give you a commission on any customer you refer to us ready to buy ArchiCAD. Now through December 31, 1999 you will receive a \$200.00 bonus check for the first site and \$100 bonus check for each additional site (ordered at same time, offer not good on further additional site orders) for every person

referred to us ready to buy one or more sites of ArchiCAD (bonus checks also good toward any combination of Graphisoft products).

ArchiCAD Tips From Jim

You can save time entering coordinates by using Radius instead of x and y coordinates. The radius command draws a line the length you type at whatever angle you are currently using. Most of the time we're drawing horizontal or vertical lines or along a fixed axis. Instead of starting the line & typing the length of a line as x 5, y 0 simply type r5. You can also save time entering coordinates by leaving out units. If you type a whole number, such as 24, ArchiCAD assumes 24'. If you type 1-6 that will be interpreted as 1'-6". 2-4 3/4 equals 2' -4 3/4"- make sure you type the space between the inch and fractional inch. 2 1/2" can be entered as 2 1/2. To enter a fraction such as 1/2" simply type 1/2. Finally for those who want to keep excess keystrokes down to a minimum ArchiCAD will accept improper fractions. For example 1 1/2" can be entered as 3/2. I hope you find these tips helpful. Look for more in future issues of News Flash.

Winner of the 1999 CAD Shootout

ArchiCAD 6.0 available on both WIN and Mac platforms was voted BEST overall Architectural CADD Software in the 1999 Designers CADD Shootout held in Los Angeles. In addition ArchiCAD 6.0 earned more gold medals than any other software in the competition including:

- BEST Overall Design
- BEST Animation
- BEST Rendering
- BEST Floor Plans
- BEST for Ease of Use
- BEST Parametric Functions
- BEST for Network Collaboration

ICS On-line Store**www.viaweb.com/intcad**

Have you checked out the ICS on-line store yet? If not what are you waiting for? Our on-line store carries a variety of ArchiCAD add-on products (some at significant discounts), Close-out and overstock specials as well as graphics software, printers, plotters and supplies. Things are constantly changing so check back often. You can enter the store using the above address or go to the ICS web page at www.intcad.com and enter through our home page.

Epson 5000 Now Available from ICS

With its EFI Fiery server and Micro Piezo DX3 print head technology the Epson 5000 will reduce your dependency on expensive analog proofing. Designed with professional graphics users in mind The Epson 5000 gives you complete control over CMYK process and includes the standard Color

Rendering Dictionaries which can be fine-tuned for custom colors. You will be able to simultaneously spool, RIP, and print jobs over your entire network (either MAC or WIN)

saving expensive production time. For more information or specs please visit Epson's web site, www.epson.com. Call us to set up an appointment to see the professional printing capabilities of the Epson 5000 offers.

ICS also offers supplies for all your other Epson printers. Most items are available in-stock for store pickup or same day delivery.

D3 SmartParts v3.0 now shipping

Dimensions Design Group, Inc., a leading provider of advanced visualization and construction documents tools for Graphisoft's ArchiCAD, announced the availability and shipping of version 3.0 of the D3 SmartParts Collection Libraries for ArchiCAD. These libraries make ArchiCAD 6.0 (and future releases) easier and more productive to use by

providing a large selection of "ArchiCAD-ready" elements that can be used to assemble design plans and create more life-like scenes for architectural and other real world 3D designs. Now is the best time to save on the new v3.0 upgrade.

Now until September 30, 1999 any set (TRIM objects, HOME furniture, OFFICE furniture, REAL Doors & Windows, REAL Kitchen & Bath, STORE Planner) is on sale for \$150 or get the whole collection for \$595 (reg. \$195 ea. \$695 complete collection) plus FREE bonus set of EasyGDL Objects with any order. If you purchased SmartParts within the past year the upgrade on that any library that you purchased is free (plus \$10 S&H), if it's been over a year the upgrade price is \$50 (renewal of one-year license).

To take advantage of this special offer call ICS at 617-576-8778 or email your order to sales@intcad.com.

Special Promotion on ArchiCAD Add-ons

STOCK BALANCE BLOW OUT on Design/Build Series One with Roofmaker and Project Framework. Call now supplies are limited!

Design/Build Series I with RoofMaker

Regularly \$595 On special for \$495*

Design/Build Series I package includes: RoofMaker and RoofMaker Library, MoldingMaker and Molding profiles library, 100+ additional library parts, ready-to-place room modules, two website templates, sample ArchiCAD project files and renderings and StoneCad™ for ArchiCAD

Project Framework

Regularly \$65 On special for \$55*

Project Framework was developed to assist new users come to grips with implementing a sophisticated CAD package into their offices. This guide concentrates on the process of the documentation of a building rather than the functionality

To take advantage of this offer fill out the order form on the reverse side, pick a shipping method and fax back to 617-576-5543. You may also call us at 617-576-8778 or email sales@intcad.com to place orders. *while supplies last

New iBook introduced at MacWorld

**iBook features**

- 12.1" TFT SVGA display
- PowerPC G3 processor
- Six hour battery life
- 56K modem
- 10/100 BASE-T ethernet
- CD-ROM drive
- AirPort wireless internet connection option
- Full size keyboard
- USB port for peripherals
- Mac OS 8.6
- 32MB SDRAM, expandable to 160MB
- ATI RAGE Mobility graphic controller with 4MB SDRAM video memory and 2X AGP
- 3.2GB IDE hard disk drive
- Innovative power adapter that lets you wind up its cord like a YoYo
- Build-in stereo headphone jack

The new iBook... Unveiled at MacWorld the iBook is the "iMac to Go." Unique design innovations include its rubber coated translucent enclosure for added durability, a pullout handle for portable ease and a unique latch-free closing mechanism for faster and easier access. iBooks will be available in late September for \$1599 (available in blueberry and tangerine). Because of an already huge demand, ICS is now accepting orders with deposits for iBooks.

Purchase Apple products at Apple Specialist location only.

New Product Introductions at MacWorld

MACWORLD EXPO, NEW YORK - JULY 21, 1999

AirPort™ Technology... Apple along with Lucent brings you cable-free internet access. To go wireless you will need an AirPort™ Card (\$99), easily installed by the consumer and an AirPort Base (\$299). The iBook is the first computer designed around AirPort technology though Apple will also offer a wireless card for its current line of PowerBook® professional notebooks.

QuickTime TV... Free to viewers, seamlessly integrated four key elements: Apple's award winning QuickTime 4 Player software, Apple's open-source QuickTime Streaming Server Software, the Apple/Akamai Technologies streamed content delivery service and compelling content from leading providers. The QTV network includes ABC News, Disney, ESPN, RollingStone.com, VHi, Virgin Radio, FOX News Online, Sports Online, HBO, WGBH Boston, The Weather Channel and more. Mac and Win viewers can view QTV via QuickTime 4 Player available as a free download from www.apple.com/quicktime.

ViaVoice available for Mac... IBM brings its award winning speech recognition software to the Mac. This easy to use interface allows you to perform a number of mundane tasks such as creating email and editing documents. Prices and additional product details will be available at product introduction.

Introducing Adobe In-Design

New! Adobe InDesign™ software redefines professional publishing delivering a level of integration, creative freedom, productivity, and precision unmatched by any other page layout programs. Adobe InDesign runs on the same interface as Adobe Photoshop® and Illustrator®. InDesign can easily convert your existing QuarkXPress documents. For more information on this or other Adobe products please visit their web site at www.adobe.com. Retail price \$1143 ICS price \$799 (Mac or WIN) competitive upgrade from Quark or PageMaker \$299 .
